Chemsultants International adds Mike Hilston and Jack Yeary to its R&D and Product & Process groups

Chemsultants International is pleased to announce two new additions to the company; Mike Hilston as Research Chemist and Jack Yeary as Quality Specialist.

In his position, Mike will be responsible for contributing to new product development projects. He will report directly to Dave McCann, Director of Research & Development. Mike brings over 30 years of materials and product R&D experience to the company. He has held numerous technical development positions in the pressure sensitive tape, energy and polymer industries.

Mike brings with him a very strong background in new materials/process development, research and new product development – he holds 16 U.S Patents covering PSA tape products, extensible films, silicone release compositions, multi-layer composites and hydrophilic copolymers. He has worked for technically based companies including: Avery Dennison, Gould Incorporated and Diamond Shamrock. Mike is a graduate of Cleveland State University and holds a B.S. in Chemistry (Cum Laude).

In his position, Jack will be responsible for testing within the Chemsultants Laboratory. He will also be involved with processes and quality assurance testing in the Product and Process Development operation. Jack will report to Brian Koski, Logistics Manager.

NEWS RELEASE

Jack brings over 35 years of pressure sensitive adhesive operations and testing experience to the company. He has held numerous positions in the pressure sensitive tape division of Avery Dennison. His experience includes responsibilities in the areas of materials, coating and finishing, and quality assurance testing.

“The addition of these two seasoned professionals further strengthens Chemsultants International’s capabilities to provide technically superior products and services to its world-wide client base” said Gary Avalon, Chief Operating Officer.

Chemsultants International is a worldwide leader in the research, development and testing of novel polymer-based products and technologies. For over 25 years Chemsultants International has shared an entrepreneurial spirit with and provided creative solutions to companies world-wide in markets as diverse as Aerospace, Medical, Electronics, Tape & Label, Pharmaceutical, Automotive, Energy, Consumer products and many more.
