Chemsultants International welcomes David McCann to the Company team

Chemsultants International is pleased to announce the addition of David A. McCann to the company as Director of Research and Development. In his position, Dave will be responsible for leading all aspects of technical consulting, research and development services that Chemsultants International provides to numerous clients in the Adhesive, Coatings and Sealants Industry. He will report directly to Gary Avalon, Chief Operating Officer.

Dave brings over 26 years of research and development, process engineering, quality assurance and technical marketing experience to the company. He has held numerous technical support and managerial positions in the polymers, printing and pressure sensitive industries. Dave brings with him a strong background in problem solving and new product development.

He has worked for companies throughout the value chain including: Spinnaker Coating, Omnova Solutions, Morgan Adhesives, Avery Dennison and Diamond Shamrock. Dave is a graduate of the University of Dayton and holds a B.S. in Chemical Engineering (Magna Cum Laude).

Chemsultants International is a worldwide leader in the research, development and testing of novel polymer-based products and technologies. For over 20 years Chemsultants International has shared an entrepreneurial spirit and provided creative solutions to companies world-wide in markets as diverse as Aerospace, Medical, Electronics, Tape & Label, Pharmaceutical, Automotive, and many more.
